Experience

Web Developer

04/2021 to 04/2023

DO WHAT WORKS

San Diego, Carlifornia , United States.

- Developed responsive and user-friendly websites, ensuring cross-browser compatibility and adherence to web standards.
 - Utilized HTML5, CSS3, JavaScript, and Liquid to create dynamic and interactive web pages.
 - Collaborated with cross-functional teams, including designers and product managers, to translate design specifications into functional, high-performance web applications.
 - Implemented best practices in web development, including code reviews, version control, and continuous integration, to ensure the delivery of high-quality solutions.
 - Conducted thorough testing and debugging to identify and resolve issues, ensuring optimal website performance.
 - Implemented performance optimizations that reduced website load times by 20% and improved overall user engagement.
 - Collaborated with clients to gather and analyze requirements, providing technical expertise and recommending solutions to meet their business objectives.
-
